Gameplay – The Game

The new generation of FIFA is here. Powered by Football (FIFA 22) – the official club soccer simulation of the world’s top clubs – finds players in and around the ball, from headers to crosses, when FIFA 22 launches on September 27, 2015. We’ve overhauled the game engine, giving players more ball control and the ability to make a difference with moves never seen before on the game. Players are now full-fledged participants in the action, with their own career path, health bar and ability to grow in skill. We’ve added a new Player Performance System that unlocks unscripted and authentic moves, moves that players in the real world make. Whether dribbling, juke-jumping, or smashing the ball, the new Player Performance System allows you to play FIFA 22 in

new and exciting ways. It's a system that delivers something different from every player. Check out the FIFA 22 gameplay videos above, and have a look at our Playground page to find out more about the mode.

Gameplay – Tactical Set Plays We've made the most of the new Player Performance System by including a new range of tactical set plays. Alongside the new strategy, FIFA 22 also includes new features and refinements that allow you to control
