Ocular toxoplasmosis in a Japanese patient: chorioretinal biopsy following allogeneic bone marrow transplantation. Ocular toxoplasmosis in a Japanese patient with aplastic anaemia following bone marrow transplantation from a HLA-matched related donor is reported. There was no prior history of ocular infection. A chorioretinal biopsy following allogeneic bone marrow transplantation failed to demonstrate any evidence of toxoplasma invasion of the choriocapillaris. The corneal stroma was clear. The biopsy specimen was processed for the usual stains,

I have been in the Catholic Church since I was little. I have now been the bread keeper for 15 years but for the past few months I have been the one who gives communion to our parish, which is quite the transformation. I love my church, what do I do wrong that they would treat me this way? What do other people do to get treated the way we get treated at my parish? Thanks! What's new in Fifa 22:

- **Ability to customize five youth cards that introduce a new “Focus” system. This system now lets you learn more about your players, understand what makes them tick, and find the best ways to develop them over the course of their playing careers. With a full overhaul of Get To Speeds, a refined match engine, and other gameplay changes, it’s the best FIFA ever.**
- **Online Competitive Seasons - A weekly mode that keeps the team together, ensures precise planning, and helps drive the action towards the end of the season. Cutting this content out results in bigger rosters and increases the long-term potential of your team.**
- **AI Refs - All 615 of them - compete with each other as part of an online FIFA World Cup happening every 4th of July in England.**
- **Pitch Vision.**
- **Improved properties for Set Pieces, Tactical Defending and team tactics.**
- **FIFA 22 brings you back to the spotlight of gaming: Player Ratings.**

FIFA is an EA SPORTS word that means 'for FIFA' - everything EA SPORTS puts its name to. The FIFA series of videogames are the most popular sports games in the world and are available in more than 200 territories. FIFA is EA SPORTS' signature brand and stands for football (or soccer as it's known in North America), and is the brainchild of EA Canada. It is also the name of the videogame series that has brought soccer into millions of homes worldwide. FIFA 20 is EA's most-played videogame franchise. Its success is down to the passion its players have for the sport, and the variety of different ways in which they can compete. FIFA 22 introduces a new 'Powered by Football' gameplay system that uses a combination of real-life and in-game physics to help players deliver authentic-looking, authentic-feeling, skill-driven football - all based on a deep understanding of the sport. The new game also includes a brand new feature called One Hotspur Mode. This sees you pitch your favourite Premier League club against real-life counterparts, keeping the league's greatest players and managers at the helm. It's the only way to compete in the ultimate football-only competition: The League. And, for the first time, it will be open to ALL nations for the World Cup. The new game also features a host of other innovations, including improved AI responsiveness and greater competition intensity; an all-new tutorial that features gameplay lessons; new player skills, kits and equipment; and two new ways to play online. And - for the first time - online play is now integrated into the experience of a single-player campaign mode, where you can compete against your pals as you take on real teams in new ways. With all this innovation - and more to come later - EA SPORTS FIFA 22 is one of the most in-depth and complete football videogames in the world. You can find out more about all this in our FIFA 20 Review. With FIFA 20, we shifted the ball to the pitch so you could play how you want. It was one of the defining moments of the game. The approach to this year's game was very different. We didn't want to take a backwards step. We knew there were areas where we needed to improve, but
